

RELIANCE AT THE BCCG ANNUAL SUMMIT 2025

Reliance was proud to participate in the BCCG Annual Summit 2025, held in Muscat, Oman, on 26 and 27 November 2025, a key gathering of leaders and practitioners from the Family Business Council Gulf (FBCG) community, focused on governance, continuity, and constructive dialogue within family enterprises.

Throughout the summit, Reliance actively contributed to high-level conversations addressing complex dynamics in family businesses, with a particular emphasis on conflict resolution and effective governance frameworks. The event provided a valuable platform for cross-cultural exchange and thoughtful discussion among regional and international participants.

As part of the official program, Reliance co-led the session “Moving from tension to constructive dialogue”, delivered by Marius alongside Herman Krul. The session explored practical approaches to navigating sensitive situations, transforming tensions into productive conversations, and strengthening long-term governance within family-owned businesses.

The strong engagement and quality of dialogue reflected the relevance of these topics for the FBCG community. Reliance’s participation in the summit underscores its ongoing commitment to supporting family businesses in addressing strategic, relational, and governance-related challenges through thoughtful, experience-based dialogue.
